VIRGINIA CHAPTER

FALL 2004

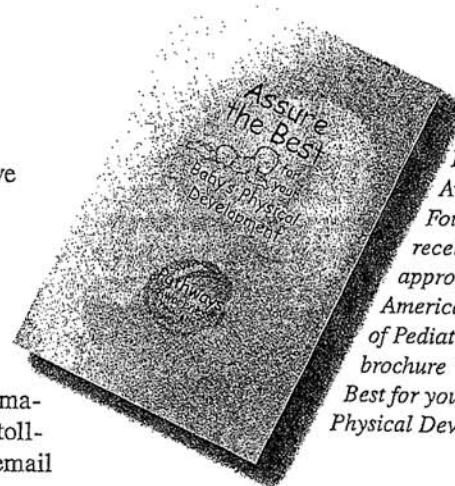

Pathways Awareness Foundation

Pathways Awareness Foundation, an organization dedicated to raising awareness of the importance of early detection and therapy for children with physical differences, received an approval from the American Academy of Pediatrics for their brochure "*Assure the Best for your Baby's Physical Development*".

The brochure, designed to educate parents and assist medical professionals in recognizing early development in children, includes an interactive chart highlighting typical speech, play and physical milestones in infants 3 to 15

months of age. This unique tool allows parents to become proactive in tracking their child's growth and encourages early treatment through therapy if their child is developing at a different pace.

To receive your free copies of the brochure to distribute to parents or to get more information call their "parent-answered" toll-free number at 1-800-955-2445, email at friends@pathwaysawareness.org or visit their web-site at www.pathwaysawareness.org.

Pathways Awareness Foundation received an approval from the American Academy of Pediatrics for their brochure "Assure the Best for your Baby's Physical Development".

Pathways believes early detection is the best prevention.
